

STAR7

Assessment Scope S9ZC01

Standard Scope 2.0.1

This defines the scope of the assessment. The assessment includes all processes, procedures and resources under responsibility of the assessed organization that are relevant to the security of the Protection Objects and their Protection Goals defined in the selected TISAX Assessment Objectives for all listed locations. The assessment is conducted in the highest TISAX Assessment Level defined in any of the selected TISAX Assessment Objectives. All criteria listed in the TISAX Assessment Objectives are subject to the assessment.

Assessment Objectives

- Data Protection according to EU-GDPR Art. 28 ("Processor")
- High Availability
- Confidential
